

Core Question 2: Is the organization in sound fiscal health?

The Financial Performance Framework, outlined in Core Question 2, gauges both near term financial health and longer term financial sustainability while accounting for key financial reporting requirements. Since opening its flagship high school in 2004, Tindley Accelerated Schools has grown to a network of six schools (Tindley Genesis opened in school year 2015-16). In the 2014-2015 school year, it served approximately 1,600 students under its charters with the Mayor's office. Central office support services, including special education services, student assessment, accountability, operations, facilities management, finance and accounting, human resources, technology, safety/security, fund development and external relations, are housed at the network level, and expenditures are distributed to each of the schools. Tindley is currently authorized to open one additional elementary schools.

2.1. Short-term Health: Does the school demonstrate the ability to pay its obligations in the next 12 months?

Indicator Targets	Does not meet standard		The school does not meet standard on 2 or more of the five sub-indicators shown below.				
	Approaching standard		The school approaches standard for all 5 sub-indicators shown below, OR meet standard on 3 sub-indicators, while approaching on the remaining 2 OR meets standard on 4 sub-indicators, while not meeting standard for the final sub-indicator.				
	Meets standard		The school meets standard for 4 sub-indicators shown below, while approaching standard on the final sub-indicator.				
	Exceeds standard		The school meets standard for all 5 sub-indicators.

Tindley Renaissance received a rating of **Approaching Standard** for Core Question 2.1 for the 2014-15 school year.

Based on data from the September 2014 count day, the school met the enrollment targets stated in its charter agreement, enrolling 501 students when it projected to enroll 480 students. By February, enrollment decreased to 497, as indicated by the Enrollment Variance calculation. As a result, the school **met standard** both enrollment indicators.

The school had less current assets than current liabilities (those due in the next 12 months). Thus, it **approached standard** for the current ratio sub-indicator.

Enrollment Variance Ratio

Tindley Renaissance ended the year with 12 days of cash on hand. This means that if payments to the school had stopped or been delayed post June 30, 2015, the school would have been able to operate for 12 more days. Based on this data, the school **did not meet standard** for this indicator.

Finally, the school successfully met its debt obligations based on the information that Crowe Horwath, the school's auditor, provided. Furthermore, there have been no negative communications from the school's lenders. Since the school did not meet standard on two of the sub-indicators in core question 2.1, it **Does Not Meet Standard** for this section of the core question.

Tindley Renaissance received a rating of **Does Not Meet Standard** for Core Question 2.3 for the 2014-15 school year.

In their review of Tindley Renaissance Academy, auditors found a material weakness as well as several significant deficiencies in the school's financial statements. Details of the report, which was published on April 4, 2016, can be found on the Indiana State Board of Accounts (ISBOA) website [here](#). The school responded proactively to the auditor's findings, noting that "Tindley did not have all practices in place" when it transitioned to in-house bookkeeping and "are in the process of developing the appropriate procedures to be in place by June 30, 2016." Tindley Renaissance **did not meet standard** for its reporting requirements as it did not meet the on-time deadline for completing its audit, and it only submitted 69% of required financial compliance documentation to OEI on-time.
